

I oppose easing any regulations on media ownership, now or in the future. There is already a dearth of independent viewpoints available and I hate to think what could happen with a further contraction.

Have you listened to radio recently? It is all formula, with no diversity. I do not want Television to be controlled by fewer Owners. I am lucky to live in an area where I can here and experience a wide range of ideas, many across the United States are not so lucky. Please, don't let there be fewer choices.
